WORKSHOP - 1

REPORT OF WORKSHOP ON GUIDELINES FOR PUBLICATION OF RESEARCH ARTICLES

We are extremely delighted that we could able to conduct an online workshop in collaboration with St Thomas college, Thrissur on Guidelines for publication of Research Articles. It was really informative and an enriching learning experience for all.

Beneficiaries: Faculty and Research scholars of Amala College of Nursing.

Objectives:

- Explain about importance of research publications
- Describe about research enabling environment
- Explore various indexed journals for research publications

The program was conducted on 2/12/2020 at lecture hall III. The session started at 2 pm with a silent prayer. The program commenced with a welcome address by Principal Dr Rajee Reghunath. The program inaugurated by our beloved directed Rev Fr Francis Kurissery CMI. The session was taken by an expert speaker Mr Sanjo Jose, College librarian, St Thomas college, Thrissur.

Mr Sanjo discussed that journal publishing is always a team effort and handling research integrity and publishing ethics issues relating to journals is no exception. These issues also may give rise to or involve legal issues. It all starts with the draft manuscript. A properly edited research paper, with proper references along with a good title, a short but precise abstract, and a detailed cover letter is the first step. Any research paper submission for publication in a

journal goes through an editorial screening to start with the publication process.

The resource person stressed about The Committee on Publication Ethics (COPE) which is an international forum for editors and publishers of peer-reviewed journals that provide the code of conduct and best practice guidelines that define publication ethics and advises editors on how to handle cases of research and publication misconduct. The resource person mentioned the criteria for publication of scientific papers mainly to report original scientific research, the main results and conclusions must not have been published or submitted elsewhere are of outstanding scientific importance. Mr Sanjo also stressed the publishing process steps and descriptions which includes ending the proposal, submitting the manuscript, language copyediting, technical editing, online publication, print and delivery of the book and about indexed journals for publication of article.

The participants were really benefitted out of this workshop. The session ended with a word of gratitude delivered by Mrs Rinu David, Assistant Professor, Amala college of Nursing. Thirty five participants benefitted out of this workshop.
