Detailed Report on Students Benefitted Due to Exposure to Laboratories

Amala College of nursing has 8 highly advanced and equipped laboratories named as follows,

1. Skill lab
2. Advanced Nursing skill lab
3. Community lab
4. OBG lab
5. Child health lab
6. Computer lab
7. Nutrition lab
8. AV aid lab

In each year the college is ensuring that all students are adequately exploring and utilizing each laboratory as per the recommendations given by the respective regulatory bodies. Prior to the clinical postings, examinations, OSCE and several other modules are conducted by every batch in respective academic years.

In first year, students are allotted for the pre-clinical practical and demonstration of several nursing procedures that helps them for the clinical experience and bedside nursing care. Nutrition lab is utilized by the students for conducting the nutrition practical. During second year of the course all students are benefitted from the skill lab, advanced nursing lab, simulation lab and community lab as a part of curriculum. In each lab they are able to carry out the practical of several procedures in the syllabus.

During third year students are exposed to the child health lab, computer lab as a part of research practical and advanced nursing skill lab for the practical. In fourth year, students get the detailed exposure through the OBG lab, community lab and AV aid lab for the curricular and co-curricular activities.

Along with this OSCE is another platform where the students are utilizing the laboratories in the college of nursing. The simulation lab is also providing adequate exposure for the students to experience the clinical set up in certain situations especially during pandemic and all.
